Column	Notes
Fee Description	<p>Identifies the particular service for which the fee applies.</p> <p>“at VOSA” – fees for examinations carried out at premises provided by VOSA or, for RPC, DVA in Northern Ireland.</p> <p>“at DP/ATF” – fees for examinations carried out at Designated Premises or Approved Testing Facilities – these examinations are carried out by VOSA staff at premises designated or approved but not provided by VOSA. The operator of the premises may levy an additional non-statutory charge for the use of the facilities.</p> <p>“OOH Sup” – a supplement which is to be paid for examinations carried out outside “core hours” at the request of the applicant. Core hours are currently 08:00 to 17:00 Monday to Thursday and 08:00 to 16:30 on Fridays, excluding Good Friday, Christmas Day and statutory Bank Holidays. There are no core hours on Saturdays or Sundays. For 2010/11 VOSA proposes to extend the core hours on normal weekdays to cover 06:00 to 20:00. However availability of tests during the extended hours will depend on local demand and VOSA’s ability to provide a cost effective service.</p>
2009 fee Rounded	The rounded fee actually charged in 2009/10
Enforcement element of fee (HGV and PSV tests)	<p>HGVs: These columns show element of the test fee which goes toward activities to encourage compliance and enforce safe and legal operation of the vehicles concerned (referred to as enforcement). The element is applied only when a full test of the vehicle is required – it is not applied to partial retests, out of hours supplements, appeals of duplicate certificates. The fee contribution to enforcement activities formerly came from operator licence vehicle fees.</p> <p>PSVs: In addition to PSV enforcement activities, this element also pays for activities formerly paid for through fees on grant and continuation of operator licences for standard or restricted PSV operator licences.</p> <p>ALL: Elements under this heading are not rounded to the nearest pound – rounding is applied to the total calculated fee only.</p>

## Notes on fee tables

Column	Notes	
	2009 before rounding	This is the enforcement element included in the 2009/10 fee. It is the transfer from operator licence funding to test fee funding in 2009. It represents half of the total increase in test fees needed to maintain funding of activities to be transferred at 2008 level. The part transferred to test fees in 2009 was then subject to the same 9% increase as other test fees for 2009/10.
	Change in 2010	This is the 2 <sup>nd</sup> half of the transfer from operator licence to test fee funding. The part retained in operator licence funding in 2009/10 was subject to the same 5% increase as other licensing fees for 2009/10.
	2010 before rounding	This is the sum of the 2 previous columns.
Testing element of fee (HGV and PSV tests)	This is the element of the fee to fund the examination and services necessary to support that examination. For services delivered without examination (e.g. some notifiable alterations) it funds the necessary technical and administrative work to consider and approve the application.  Elements under this heading are not rounded to the nearest pound – rounding is applied to the total calculated fee only.	
	2009 before rounding	This is the testing element calculated for 2009/10.
	Location change in 2010	This removes the remaining supplement for tests carried out at DPs. It is the unrounded amount necessary to bring the fees at all locations to the same levels.
	Recover location change in 2010	This is the amount which has to be added to test fees to enable DP supplements to be removed with no adverse effect on VOSA's income. It is split amongst all relevant fees in proportion to the testing element of the fees concerned which approximates to the average time for each test type.

**Notes on fee tables**

Column	Notes	
	2010 before rounding	This is the sum of the 3 previous columns
Makeup of fee (RPC)	Shows the elements which make up the proposed fee. Elements under this heading are not rounded to the nearest pound – rounding is applied to the total calculated fee only.	
	2009 before rounding	This is the fee calculated for 2009/10.
	Location change in 2010	This removes the remaining supplement for tests carried out at DPs. It is the unrounded amount necessary to bring the fees at all locations to the same levels.
	Recover location change in 2010	This is the amount which has to be added to test fees to enable DP supplements to be removed with no adverse effect on VOSA's income. It is split amongst all relevant fees in proportion to the testing element of the fees concerned which approximates to the average time for each test type.
